## **Shelly Berlin and Richard Eaton Honoured by Management Consulting Association**

The Institute of Certified Management Consultants of BC (CMC-BC) is pleased to announce that both Shelly Berlin and Richard Eaton of Berlineaton were recently granted Fellowships (FCMC) by the Institute.

The FCMC designation is the highest honour conferred by CMC-BC. It is granted to select members who have exhibited exemplary service to their clients and the management consulting profession, over many years. Less than ten per cent of CMCs are ever recognized in this way, and Richard and Shelly are two of only five in BC who have been granted Fellowships this year. CMC-BC is recognizing their achievement in the July edition of BC Business magazine.

The Certified Management Consultant (CMC) designation is the profession's only international certification mark, recognized in over 40 countries. It represents a commitment to the highest standards of consulting and adherence to the ethical canons of the profession.
